

MY OPINION

Growing up, I was strong and healthy. I reached a point, 20 years ago, when I was 40 that I could hardly go on. I am a veteran of Vietnam - the most contaminated place on earth. I had dysentery for the entire 460 days I was there. We were administered tons of inoculations, and we took pills on a daily basis. Stress came from many directions. Because of this, I think at age 40, I was almost dead.

In Vietnam, I was exposed to Agent Orange, Agent Blue and a few other chemicals no one ever talks about today. So, even though, I made it home from Vietnam with all my limbs, the daily battles go on for me – I call it the Rhyme - the daily flash-backs, the nightmares and the physical wear and tear. I think of my fallen friends at the most unusual and most inconvenient times. The war goes on for me... it will always be there for all of us humbled warriors.

These are only some of the reasons that I know that I need all of the proper nutritional support that I can get to strengthen me. I know now that if I want to live a long life, I cannot guess at what I need any longer. I need to know exactly what my body needs to be healthy. I thank God that *GeneWize* has me covered – their patented DNA test and quality supplements, custom-designed specifically for me, is the answer to my prayers.

A friend of mine, Dr. Ron West started giving me herbs around 20 years ago. It started helping immediately, so for the last 20 years I have turned my body into a testing ground.

I have invested \$1,000's of dollars purchasing a vast array of health products. They have helped a little - because I'm still here. However, three years ago, the combination of stress - past and current - was overwhelming me. My blood pressure rose to 250/180 - five months later I had a heart attack and the horrors of Vietnam came back to me like it was yesterday. They name this illness - PTSD (Post Traumatic Stress Disorder). Recently, I have been taking many treatments from the VA to fight this disorder.

Two weeks ago, my dear friend David Taynor, who has been coping with me for the past three years and trying to help, told me about *GeneWize*. Dave heard about *GeneWize* from our friend Joe Effinger. When Dave told me about *GeneWize*, I immediately said sign me up – now – after only 4 weeks, I don't have to worry about what to take or how much of it to take.

I have felt better from the 1st day I took the *GeneWize* caplets. Now, I feel like I am going to be as healthy as I can be. I don't have my custom formula from *GeneWize* as of yet – I am only taking the *GeneWize* Essentials. I can't wait to see what my Custom-Designed *GeneWize* Supplements will do for me. It is very exciting. Imagine – Custom Designer Supplements from your very own DNA.

Unfortunately for me, and everyone for that matter, this product was not available 20 or 45 years ago. My three worst years of suffering could have possibly been prevented.
