Dave Taynor, a 57 year old entrepreneur, currently resides in Bethalto, Illinois. Bethalto is located in Southwestern Illinois, just across the river from St. Louis, Missouri.

Dave grew up in Bethalto, and attended Civic Memorial High School where he was a High School All-State and All-American Basketball Player.

Dave was offered a basketball scholarship to play at the University of Kansas. He was fortunate to participate in two “Final Four” Basketball Championships while he was at Kansas, and he was named the Co-Captain of the 1974 Final Four Kansas Basketball Team.

Dave has owned and operated several successful businesses during his relatively young lifetime.

In the late 70’s and early 80’s, Dave taught and coached in the Southwestern School District in Piasa, Illinois moving on to Belleville Area College (now, Southwestern Illinois University) in Belleville, Illinois and then on to Lewis and Clark College in Godfrey, Illinois.

While coaching and teaching, Dave also kept busy in the advertising and marketing industry. Dave’s first venture into the print industry was as the editor and owner of Sports and Spots, a local newspaper that focused on sports and local entertainment. Dave expanded his emerging media empire throughout the 1980’s to include the following: Dave produced several local, regional and national television and radio shows: a nation-wide baseball “Spring Training Radio Show”, the regional Whitey Herzog Television Show, as well as local college and high school sporting events. Dave also owned and operated the Redbird Review (which was the Official St. Louis Cardinal Baseball Magazine), the Fighting Illini Review (which was the Official University of Illinois Sports Magazine), The Mizzou RAH (which was the Official University of Missouri Sports Magazine), and the Southwestern Illinois Business Journal. Dave also published Action Marketing – a local shopper’s guide.

In the 80's and 90's, with his entrepreneurial spirit, Dave established, owned and operated a very successful insurance agency and began investigating the building industry – concentrating in the residential marketplace.

In the late 90's through today, Dave has become very interested and active in the “Green” Building Industry. Dave has established his own proprietary building system – The Cornerstone Building System. His product can be found at www.cbssips.com. It is a structural insulated panel building system that qualifies for all “Green” Programs, saving homeowners 75% on their monthly utility bills while being able to withstand up to 200 mile per hour winds. Dave guarantees that a home built with his Cornerstone Building System Panels will be stronger, safer, and more comfortable and will never have a Black Mold problem for the life of the home.

Dave is also currently working with a not so well known, but very progressive and intelligent scientist, in developing a revolutionary photo-voltaic energy system to compliment his Cornerstone Building System so that he can provide a “Zero Energy” home in the very new future that is cost effective for the average family to own.

Throughout his adult life, Dave has been very interested in the Network Marketing Industry. He has been fortunate to know and work with some of the top networkers in the world. Dave, with help from his good friend and business associate, Rob Brennecke has designed, written, and produced the marketing materials for several internet marketing companies.

For the past year, Dave has been honing his internet marketing skills and currently is combining these skills with his network marketing knowledge in an effort to accomplish one of his current goals of helping the “Average Joe” become successful in network marketing.

With the current state of the economy, Dave has a burning desire to help anyone that will listen to him improve their skills in a fashion that will turn into dollars and cents for those individuals. Dave is designing a very simple – duplicatable system that anyone can follow, if they so desire, to help them earn an extra income part-time. Dave's system is very simple. The only skill that someone needs to possess to become successful with Dave's system is a desire to earn additional income – whether someone is looking to make an additional \$200 per month, \$500 per month, \$1,000 per month or truly work the system and earn a full-time income every month, Dave's system can help.

Next, Dave plans to help the homeless and jobless by building homes that these individuals can reside in and by providing training to these individuals so they can learn the skills to earn a good income helping them become a vital part of society once again.
